

**Re: Professional reference for Mr. Ondřej Vališ**

To Whom It May Concern:

Ondřej Vališ was employed as a computer graphics specialist with RKD Architects (current staff: 150) from June 2008 until October 2008. During his time with the company, we found Ondřej to be a diligent and punctual employee who integrated well with team-mates and who committed himself fully to each project with which he was involved.

He worked on a range of medium- and large-scale industrial, residential and mixed-use development projects in Ireland and Dubai, including:

- Al Réem Island - Dubai
- JBC Ballsbridge Redevelopment Project - Dublin
- Brunello Development - Dublin
- Al Wahda City 1 Hotel - Dubai
- Alchemy Mixed Use Development - Cork
- Mirdif 251 - Dubai
- Fitzwilton House Redevelopment - Dublin
- Diageo Greenfield Brewery Project - Kildare
- National Concert Hall Redevelopment - Dublin

Ondřej's main strengths are the speed and accuracy of his work. He is capable of producing high-quality 2D and 3D computer graphic imagery within very tight timeframes, which represented a significantly valuable resource with regard to both project deadlines and the generation of multiple visualisation options for clients. By referencing source material such as architectural plans and photographs he was able to deliver presentation-quality 2D images, photorealistic montages, and 3D model renders.

Unfortunately during October 2008 the company was forced to make a number of redundancies, the main criterion for selection being length of service, and subsequently Ondřej was among those let go.

With respect to his temperament and abilities I would have no hesitation in recommending Ondřej for the present position and wish him every success in his future employment.

Yours sincerely,
